

User Guide

In Admin panel you need to enable this module under **store > configuration > BlueThink Inc > Product Notify**

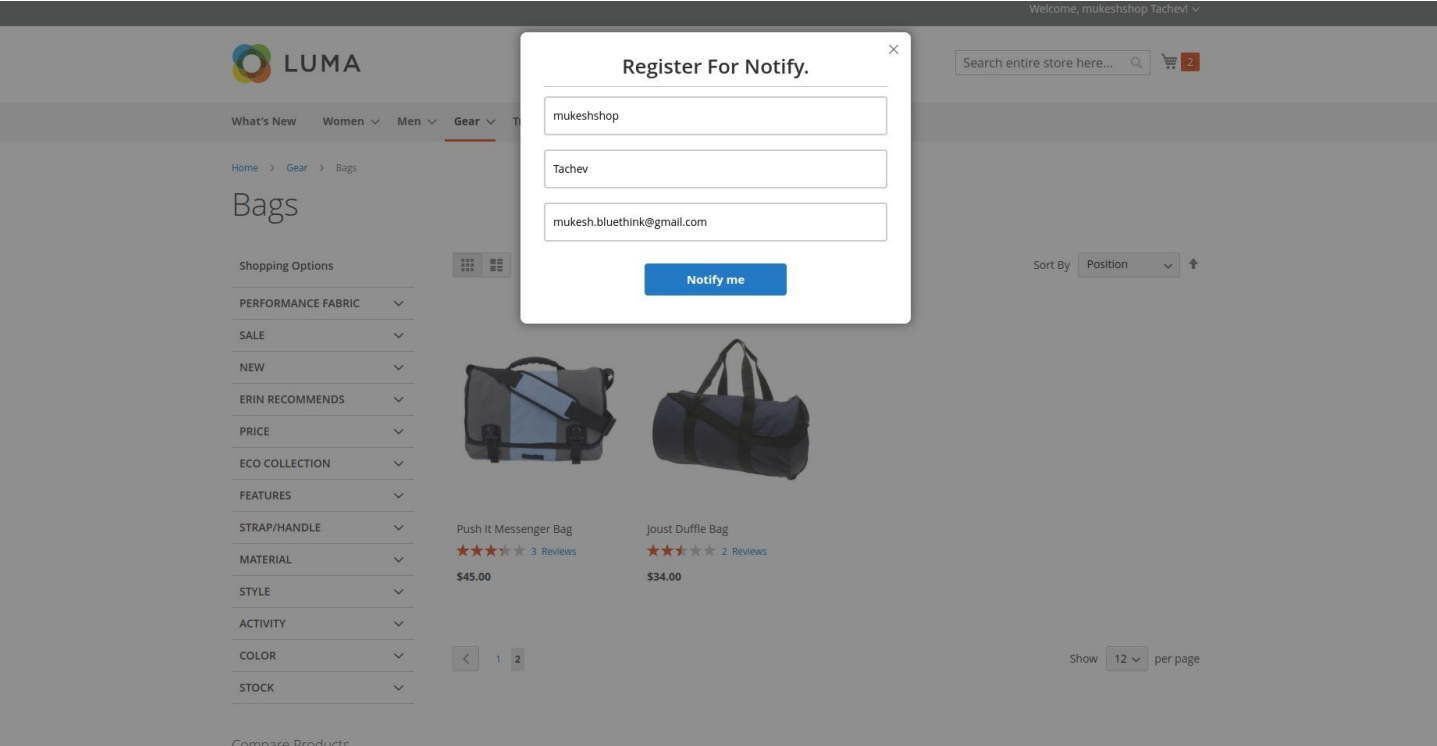

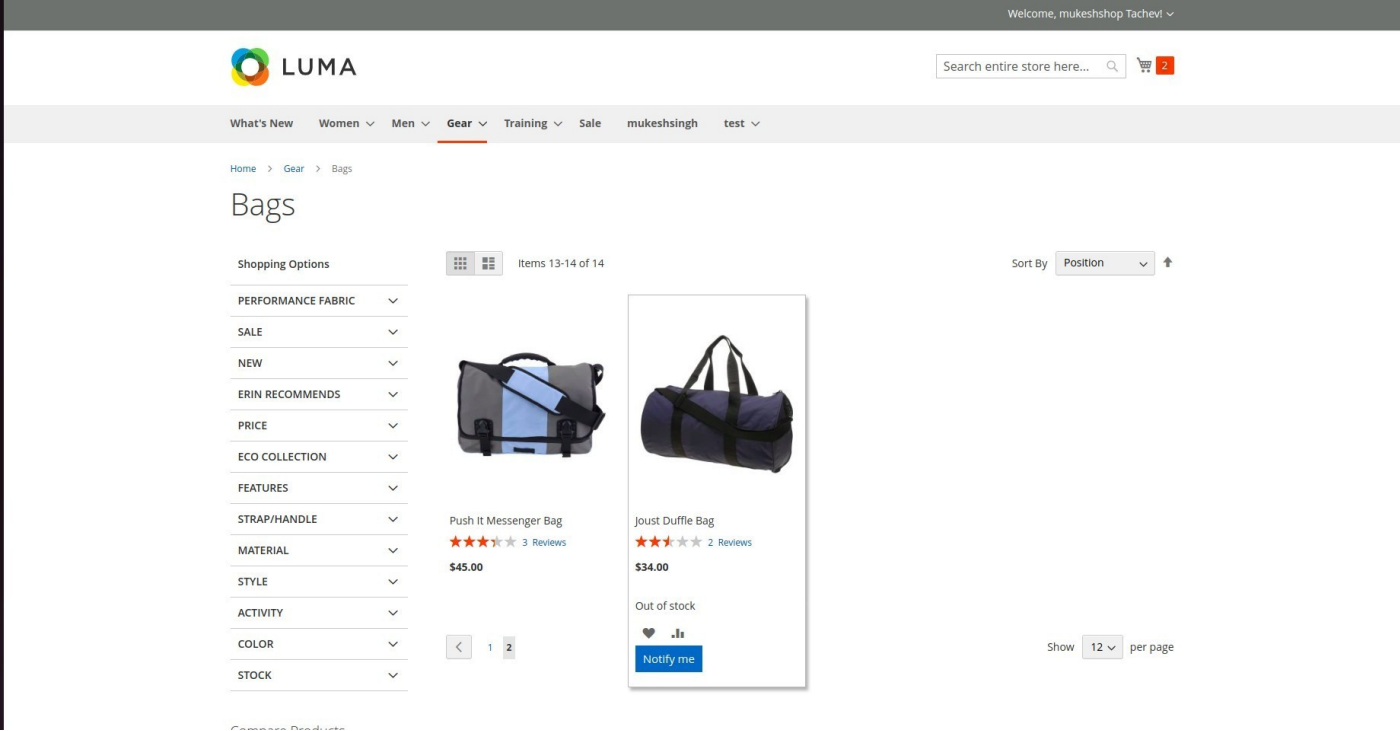

There are few options to set Button options, Frequency, Start Time, Select Customer Register User Template, Select Customer Notify User Template, Email Subject Register User, Email Subject Notify User, Select Email Sender.

The screenshot shows the Magento Admin Configuration page for the **Product Notify** module. The left sidebar contains a navigation menu with options like Dashboard, Sales, Catalog, Customers, Marketing, Content, Reports, Stores, System, Find Partners & Extensions, and Notify Stock Availability. The main content area is titled **Configuration** and shows the **Product Notify** module selected under **BLUETHINK INC**. The configuration is divided into several sections:

- General Configuration**: Includes the **Enable Module** dropdown, which is highlighted by a red box and labeled "Product List Page and detail page button show setting".
- Button options**: Includes the **Button Enable** dropdown, which is highlighted by a red box and labeled "Extension Enable setting".
- Notify Cron Configuration**: Includes the **Frequency** dropdown, which is highlighted by a red box and labeled "Cron setting".
- Send Email To User Configuration**: This section is visible but not highlighted.

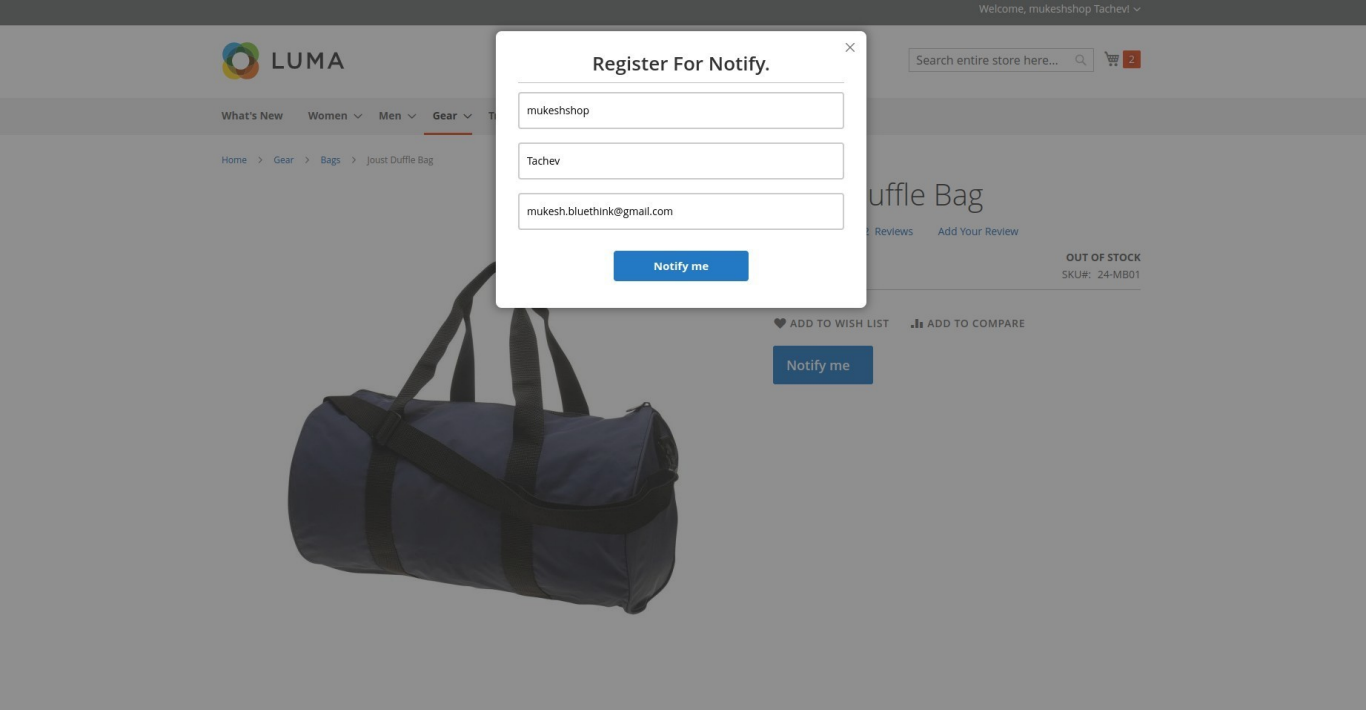

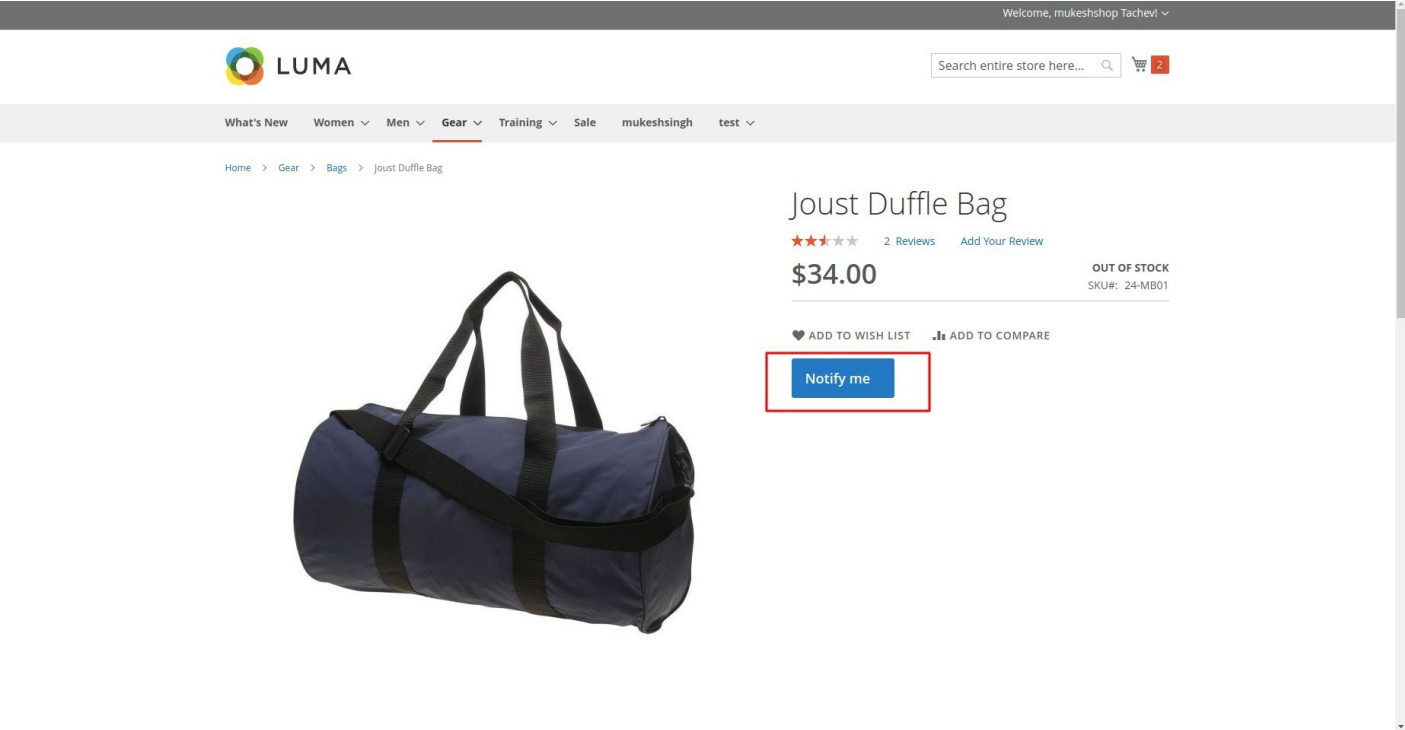

At the bottom of the page, the footer indicates "Copyright © 2024 Magento Commerce Inc. All rights reserved." and "Magento ver. 2.4.6-p3".
